COTORACI

Cotoraci is one of the most recognized Romanian DJs, known for his dynamic, crowd-driven style and strong open-format versatility. Born in Arad and introduced to music through piano at the age of five, he began DJing in 1996 and built a solid national presence. By 2005, his talent as both DJ and MC brought him to Bucharest, where he headlined major clubs and became appreciated for his ability to keep any dancefloor engaged from start to finish.

Since 2018, he has focused on electronic music, shaping a polished and versatile sound that blends multiple genres, adapting effortlessly to each event whether a more commercial or a more energetic direction is required.

His studio work has gained support from respected industry figures, leading to appearances at international clubs, festivals and premium events.

Today, Cotoraci stands out through a modern, high-impact approach and a unique ability to adapt fluidly to any crowd.

MUSIC GENRE

Genres & Musical Direction

His sets explore a wide spectrum of electronic music, including Tech House, Deep House, Afro House, Melodic House & Techno, Progressive House, Minimal Deep Tech, Indie Dance, Nu Disco, Funk / Disco, Breaks, Garage, Jackin House, Electro House, Future House and Techno.

When an event requires a broader palette, he integrates R&B and Hip-Hop with the same precision and fluidity.

Versatility & Performance Style

Recognized for his adaptability and crowd awareness, Cotoraci approaches each performance with a strong open-format mindset. His previous experience across clubs, corporate events and private functions allows him to adjust instantly to any atmosphere, maintaining a consistent energy flow and crafting sets that evolve naturally with the audience.

DJ TECH RIDER

Main Equipment (DJ Booth Setup)

Pioneer DJ Setup:

- Pioneer CDJ-3000 – minimum 2 units required; 3 or 4 units preferred for full performance flexibility / Pro DJ Link enabled
